

# LIGHT "Kills" Beer Even Pure Beer.

Every brewer knows this and covers even the hand-holes of the case to keep out light.

We do more. We put Schlitz in Brown Bottles.

Schlitz will not spoil when the case is open—even though it be for months.

It is only natural that Schlitz in Brown Bottles should be the home beer.

The Brown Bottle protects Schlitz purity from the brewery to your glass.

See that crown or cork is branded "Schlitz."

## Cable News SENATE NOT FOR MAJ. RAY

(Associated Press Cable)  
WASHINGTON, D. C., August 26.—The senate has refused to confirm a large number of the important appointments sent to it by the President, including the appointment of Major Beecher B. Ray, paymaster, whom the President named for promotion to a deputy paymaster generalship.

Charges of immorality and of active political partisanship have been made against Major Ray, some of the correspondence submitted in evidence having to do with the misconduct of the paymaster with the wife of a subordinate employe in his office in Honolulu and San Francisco.

### ANOTHER "WIRELESS" FEATURED AS NEWS

Story Printed in the Star-Bulletin Forty Days Ago Now Given as "Special" Wireless

In the Star-Bulletin of July 16, there was published the fact that the Rev. Charles Keller was preparing to leave Cambridge, Mass., to come to Molokai as a priest.

In the morning paper today, August 27, there is a purported wireless message—"special"—to the same effect.

For the purposes of comparison between the full story in the Star-Bulletin and the "wireless" featured in the morning paper some forty days later, both are herewith reproduced:

From The Star-Bulletin, July 16.  
To study leprosy in the Hawaiian Islands, the Rev. Charles Keller, pastor of a Catholic church at Centaur, Mo., has resigned from the ministry and will journey to the Islands as soon as he completes a special course in medicine which he is now taking at Cambridge, Mass. Father Keller has just completed a four years' course in medicine at the American Medical College.

Word of the plans of the priest to visit Hawaii was received here yesterday. Father Keller says that his resignation as pastor will not affect his relations with the priesthood. He will work here as a Catholic medical missionary, he says.

"At first I pursued the study of medicine for the sole purpose of occupying my mind in a beneficial way," said the priest. "My interest increased as I advanced in the study, and I decided to finish a professional course, as I was convinced that the practice of medicine might prove no less beneficial to humanity than my previous activities."

"I do not give up my priesthood by my resignation I merely surrender by priestly functions."

Father Keller is 47 years old and a native of Coblenz, Germany. After serving in the Prussian army he came to America in 1888 and opened a branch house for his father, a wealthy wine merchant. In 1889 he went to Rome and began the study of theology. From The Advertiser, August 27.

### MARLATT HOPES TO CHECK FRUIT FLY

SAN FRANCISCO, Cal., Aug. 15.—Charles L. Marlatt and Arthur L. Day, two of the government's best-known scientists in its agricultural department, are in the city on special missions. Day, foremost among American physicists, is at the St. Francis, preparing to study rock formation in California. Marlatt is at the Fairmont awaiting the departure of the next steamer for Hawaii, whither he goes to make the preliminary arrangements for a vigorous fight against the Mediterranean fruit fly. "The government has made a liberal appropriation for this purpose," said Marlatt yesterday. "I'm going to Hawaii to look over the situation and organize a temporary force to inaugurate in the islands a strict quarantine and other methods of fighting the fly. Similar work is being done in California under an appropriation made by the state, and I think that with the co-operation of the federal government, which purposes to take over this work eventually, we will be able to check the damage done by the Mediterranean fly, if not entirely exterminate it in the country."
